Gladiolus Bulbs

of Select Varieties

Season 1927

Offered By

Nathan Van De Car

Gladiolus Specialists

127 Strong Avenue

Syracuse, N. Y.

Foreword

The first thought that desires expression is to thank my old customers for their favors in the past. You will continue to receive the best service possible. To others who may favor me with business, I wish to say this—I shall extend the quality of service that will give you the desire to continue your business with me, so that you too will be numbered among my old customers.

The bulbs offered are guaranteed to be of the best quality and free from disease. I take great care at all times to keep the different sorts TRUE TO NAME. However, if any errors occur they will be promptly and cheerfully adjusted.

This season I am offering in addition to bulbs $1\frac{1}{4}$ " and larger some half-size bulbs which are $\frac{3}{4}$ " and larger. And I am also listing cormels or bulblets of some varieties. I am doing this at the request of some of my customers and friends who wish to try small sizes.

Bulbs of varieties in this list are offered subject to prior sale. And as some sorts are limited in quantity, it will be prudent to order NOW, and thus avoid disappointment. If I am "sold out" of a variety I will not substitute, but I will return your money unless advised otherwise.

Customers wishing to send or import bulbs into Canada are required to secure a permit from the Destructive Insect and Pest Act Advisory Board of the Canadian Department of Agriculture. Please forward the number of the permit with your order.

All orders will be sent postpaid, and full cultural directions will be included in each. The bulbs will be packed and delivered for transportation with the greatest care. I cannot take the responsibility for damage caused during transit. In any such instance a claim should be made to the carrier.

Please send cash with your order. Remittance by Postal Money Order, Express Money Order, Bank Draft or Certified Check is requested. If your order comes from outside the United States, please remit by a draft drawn on a New York Bank or by an International order made out in American Money.

An order blank is enclosed for your convenience. Please write VERY PLAINLY.

Hoping that I may have the pleasure of serving you,
I am,

Very truly yours,

NATHAN VAN DE CAR.

February 20, 1927.

The American Gladiolus Society

If you are interested in the gladiolus it will be to your advantage to join the American Gladiolus Society. The price of membership is \$2.00 per year, payable in advance. Every member has the privilege of exhibiting their gladiolus blooms at the Annual Exhibition given by the Society, and taking an active part in the meetings. And each member receives the Gladiolus Bulletin. The Bulletin is a really worth-while magazine and the official publication of the A. G. S. It is mailed to members each month.

Those wishing to join the Society may send their remittance of \$2.00 to Mr. John C. Davis, Treasurer, 77 South Ave., Rochester, N. Y. If an order is being sent me, add the above amount to your order and I shall be glad to send the application for you.

All members of the A. G. S. are allowed a 5% discount from the amount of their orders of bulbs selected from this catalogue. Your membership number (which is printed on your membership card), must appear in the space provided for it on the enclosed order blank.

Non-members who order from me and who will send their membership fee of \$2.00 in addition to the amount of their order, are also entitled to this same discount.

Types

To those who are not real familiar with the gladiolus, a word or two regarding types will be helpful. In this catalogue are listed only three types, i. e., the Grandiflorus, the Primulinus and the Primulinus-Grandiflorus. And after the name of each variety is stated, in abbreviation, its type.

The Grandiflorus type comprises the large-flowered sorts with widely opened flowers produced on heavy, thick stems. The florets, generally speaking, grow closely together along the stem.

To the Primulinus type belong the smaller flowered sorts produced on slender, wiry stems. The florets are spaced farther apart, in proportion to their size, than those of the Grandiflorus type. And the formation of these florets is distinctive. The upper petal grows in such a manner as to extend over the lower part of the bloom in a graceful curve much resembling a cap or hood.

The Primulinus-Grandiflorus type possesses characteristics of both of the above mentioned types. It combines the size and dignity of the Grandiflorus with the graceful growth and beauty of the Primulinus.

Except where noted, one dozen bulbs may be purchased for the price of ten. And one-half dozen may be purchased for the price of five.

Recent Introductions and Rare Varieties

ARABIA (GRAND.). The novelty of this flower is its unusually dark color, which is a black mahogany red. The buds are so dark that they appear to be black, and visitors seeing the flower in the garden generally refer to it as "that black one." Unlike most of the very deeply colored sorts, Arabia does not possess a dull, flat shading. On the contrary it exhibits an unusual velvety sheen.

Bulbs, each, 1½"	\$1.00	¾"	60c
Bubblets, each	10c	Doz.	\$1.00 100 \$7.50

CATHERINE COLEMAN (GRAND.). Salmon-pink overlaid geranium-pink with a blotch of amaranth-purple on lower petal. Tall grower, with flowers well placed on spike.

Bulbs, each, 1½"	75c
------------------	-----

CLEOPATRA (GRAND.). Large flowers of very deep yellow, borne on good strong stems. The flowers have good substance and the petals are ruffled. Stock is limited, only one to a customer this season.

Bulbs, each, 1½"	\$1.50
Bubblets, each	15c

Doz. \$1.50

DR. F. E. BENNETT (GRAND.). Deep peach red, overlaid with flame-scarlet, fine specks of ruby and white in throat of bloom. Flowers are very large, of good substance and well placed on spike. One of the best reds.

Bulbs, each, 1½"	\$.50
Bubblets, each	5c

Doz. 50c 100 3.50

EMILE AUBRUN (GRAND.). An Australian variety of exceptional merit. The individual flowers are very large, with as many as ten open at one time. The color is a peculiar blending of deep dull red, bronze and slate, with a red blotch in center of lower petals.

Bulbs, each, 1½"	\$ 2.00
Bubblets, each	20c

Doz. \$1.75 100 \$12.00

GENESEE (PRIM.). The color is a light creamy-buff, a very unusual color for a "Glad." The flowers are perfect in shape and are well placed on the stem. It is a strong and vigorous grower.

Bulbs, each, 1½"	25c
------------------	-----

GLADDIE BOY (PRIM.-GRAND.). A beautiful grenadine pink blending with straw yellow deep in the throat of the flower. The petals have excellent substance and are beautifully frilled.

Bulbs, each, 1½"	\$5.00	¾"	\$3.00
Bulblets, each.....	50c	Doz.....	5.00

GLORIANA (PRIM.-GRAND.). A very delicate golden salmon blending to a cream yellow throat. An exceptionally beautiful color combination. Stock limited, only one to a customer this season.

Bulbs, each, 1½"	\$2.00
Bulblets, each.....	20c Doz..... 2.00

J. A. CARBONE (GRAND.). Orange-salmon, shading deeper toward the outer edges of the petals. This variety has a yellow center. A very large flower, of good substance, borne on long, straight stems.

Bulbs, each, 1½"	50c	¾"	\$.30
Bulblets, each....5c	Doz.....50c	100.....	3.50

MINUET (GRAND.). Fine new lavender. The flowers are large, of good substance and an excellent, clear, shade with no flecking. Large bulbs sold for \$100.00 each last season.

Bulblets, each.....	\$1.00	Doz.....	\$10.00
---------------------	--------	----------	---------

MRS. AVIS MANNING (PRIM.). Lemon yellow shading to chrome in throat of flower. Large, well opened flowers.

Bulbs, each, 1½"	\$1.00
Bulblets, each.....10c	Doz..... 1.00

MRS. P. W. SISSON (GRAND.). Light geranium-pink with cream-white at base of lower petals. When this variety was exhibited as a seedling it was awarded an A. G. S. First Class Certificate. And it also won a \$100.00 cash prize for best new seedling.

Bulblets, each.....	\$1.00	Doz.....	\$10.00
---------------------	--------	----------	---------

PACKARD (GRAND.). This is one of the late Luther Burbank's originations. Brownish lavender, with throat blotched rosy pomegranate-purple. Only one to a customer this season.

Bulbs, each, 1½"	\$2.50
------------------	--------

PENNANT (PRIM.-GRAND.). Creamy white with deep edge of deep rose-doree. Thin red line in throat.

Bulbs, each, 1½"	\$1.00
------------------	--------

PICCADILLY (GRAND.). Pure creamy yellow, with rich amber throat. The flowers are very large and are borne on tall, straight stems. It is an excellent variety and received a rating of 98% perfect for commercial work by Mr. Gersdorff.

Bulbs, each, 1½"	\$.50
Bulblets, each....5c	Doz.....50c.....100..... 3.50

RED CROSS (GRAND.). Flame scarlet blended Brazil-red. Large flowers, Bulbs, each, 1 $\frac{1}{4}$ ".....\$1.00

RITA BECK (GRAND.). A light salmon-pink on flesh, shading to flesh in the throat of the bloom. Radiating from the center of the flower, through each of the lower petals, are seven distinct parallel hair-like lines of clear scarlet. The flowers are large, of excellent substance and well placed on the spike. This is the best of the newer sorts and has a promising future for commercial use.

Bulbs, each, 1 $\frac{1}{4}$ ".....\$10.00 $\frac{3}{4}$ ".....\$ 6.00
Bubblets, each 1.00 Doz. 10.00

ROSE MIST (PRIM.-GRAND.). An excellent flower with a color that is not easy to describe. It is a deep rose with a distinct narrow line of buff on the edge of the petals. Large flowers on a sturdy, erect stem.

Bulbs, each, 1 $\frac{1}{4}$ ".....\$1.00 $\frac{3}{4}$ ".....\$.60
Bubblets, each10 Doz. 1.00

The Popular Varieties

ALBANIA (GRAND.). One of the best pure white gladiolus. Flowers are large, widely opened, of good substance and placed well on the stem.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

ANNA EBERIUS (GRAND.). Deep Rhodamine-purple shading into deep bordeaux center. Well formed flowers on good spike. This variety is admired by all.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

Bulblets, Doz. 10c 100 50c

BARON JOSEPH HULOT (GRAND.). A deep violet. In many catalogues this "Glad" is referred to as the best blue. The flowers are small but it is very popular due to its deep color.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

BYRON L. SMITH (GRAND.). The coloring of this flower rivals the orchid. An extremely delicate shade of lavender on flesh ground. The throat of the bloom is rich cream. The flowers are of good size, finely formed and many open at one time.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

Bulblets, Doz. 10c 100 50c

CAPTAIN BOYNTON (GRAND.). Very light lavender with a deep lavender blotch in throat. Flowers of good form and substance. Very popular. Awarded FIRST CLASS CERTIFICATE by American Gladiolus Society.

Bulbs, each, 1 $\frac{1}{4}$ " 30c 3/4" \$.15

Bulblets, Doz. 30c 100 2.00

CARMEN SYLVA (GRAND.). Pure snow-white with very fine lilac lines deep in the throat of the flower. Many flowers open on a tall, straight, wiry stem.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

Bulblets, Doz. 10c 100 50c

CHALLENGER (GRAND.). This variety is a strong grower and a sure bloomer. The flowers are large, well formed and in color are an intense velvety red. It is one of the most striking reds.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

Bulblets, Doz. 10c 100 50c

CONCORDIA (GRAND.). A Holland variety whose novelty is in its color. It is a deep reddish purple, growing lighter in the throat of the bloom. The color is novel but the growth is not strong. However, it is well worth the price for color alone.

Bulbs, each, 1 $\frac{1}{4}$ " 10c 3/4" 5c

Bulblets, Doz. 10c 100 50c

CRIMSON GLOW (GRAND.). Brilliant crimson with fine, narrow, white markings in the throat of the flower. The outer portions of the petals are flaked with deeper crimson. The flowers are large and they open with a generous spread of petals. This is a gorgeous flower and one of the best reds.

Bulbs, each, 1½"	10c	¾"	5c
Bubblets, Doz.	10c	100	50c

DOROTHY McKIBBON (GRAND.). Outer edges of petals are deep pink which blends into pure apple-blossom-pink in the throat of the blooms. The petals are heavily ruffled. A fine early, pink "Glad."

Bulbs, each, 1½"	10c
------------------	-----

ELIZABETH TABOR (PRIM.-GRAND.). The throat of the bloom is flesh which blends into a very light shade of pink. This color deepens, and toward the edges of the petals it becomes a delicate shade of rose-pink. On each lower petal is a blotch of deep crimson which ends in a triangular spot of rich cream. The flowers have good form and substance. It is extremely early, some growers having cut blooms in fifty days from planting. It was given the AWARD OF MERIT by the American Gladiolus Society.

Bulbs, each, 1½"	20c	¾"	\$.10
Bubblets, each ...2c	Doz.....20c	100.....1.40	

ETHELYN (PRIM.). Deep, rich yellow, shaded orange, with lighter throat. A tall grower with 5 to 7 flowers open at one time. One of the finest Primulinus in existence.

Bulbs, each, 1½"	50c	¾"	\$.30
Bubblets, each ...5c	Doz.....50c	100.....3.50	

EVELYN KIRTLAND (GRAND.). Very light rose-pink, growing deeper at edges of petals. Scarlet blotch in throat. Flowers are large and open with a broad expanse of petals. The spike is tall and straight, having many flowers open at one time.

Bulbs, each 1⅔"	6c
Bubblets, Doz.....5c	100.....35c

FIRY KNIGHT (GRAND.). This variety is well named. It is a glowing fiery red. It is popular with visitors who have seen it in bloom in my gardens.

Bulbs, each, 1½"	25c	¾"	\$.15
Bubblets, Doz.....25c	100.....1.50		

GIANT NYMPH (GRAND.). Large, widely opened flowers of la France-pink with creamy-yellow throat. Has a long flower spike with flowers well arranged upon it.

Bulbs, each, 1½"	\$.20
Bubblets, Doz.....20c	100.....1.40

GOLDEN MEASURE (GRAND.). By many growers this is still considered to be the best yellow. The color is deep golden yellow with no markings within the flower. The blooms are very large and many are open on the spike at one time. This is a very healthy, strong growing gladiolus.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

HAZEL DAWN (GRAND.). An uncommon strawberry pink with throat a little lighter shade, and dotted with carmine markings. This variety attracted considerable attention from visitors in my gardens last summer.

Bulbs, each, 1 $\frac{1}{4}$ " \$.35

Bulblets, Doz. 35c 100 2.50

HENRY C. GOEHL (GRAND.). Large, widely opened flowers of creamy-white, with a beautiful red blotch on lower petals. A wonderful variety that will become very popular for cut flowers.

Bulbs, each, 1 $\frac{1}{4}$ " \$.20

Bulblets, Doz. 20c 100 1.40

HERADA (GRAND.). Pure lavender-mauve, darker in throat of flower. Tall, strong stems bearing immense blooms.

Bulbs, each, 1 $\frac{1}{4}$ " 10c

ILLUMINATOR (GRAND.). Carmine-red, lighter within the flower, but becomes more intense toward the outer edges of the petals, where it is flaked with deeper carmine markings. The flower is marked with narrow stripes of deep maroon-purple. The color combination is unusual but of such a pleasing character that it is sure to command a second glance as one passes before it. It is extremely early. This variety was awarded the FIRST CLASS CERTIFICATE of the American Gladiolus Society. This is the highest award of the society and ILLUMINATOR is the first gladiolus to receive it.

Bulbs, each, 1 $\frac{1}{4}$ " 30c 3/4" \$.15

Bulblets, each.....3c Doz. 30c 100 2.00

JACOBA VAN BEYREN (GRAND.). An extraordinary violet, self-color, which is distinct from other varieties of this class. It makes a good robust growth with flowers well placed upon a tall, strong stem. Many flowers open at one time.

Bulbs, each, 1 $\frac{1}{4}$ " 20c

JEAN du TAILLES (GRAND.). A fine French variety. Deep salmon having petals flaked with a deeper salmon shade. Large flowers of good substance and fine form. A sure bloomer and an excellent variety for cut flowers.

Bulbs, each, 1 $\frac{1}{4}$ " 20c

JENNY LIND (GRAND.). A soft, delicate, shrimp-pink blending into a rich cream throat. The flowers are lily-shaped with ruffled petals. A very dainty gladiolus.

Bulbs, each, 1½"	25c	¾"	\$.15
Bubblets, Doz.	25c	100	1.75

JEWELL (PRIM.-GRAND.). A beautiful salmon-pink with a rich golden-yellow throat. The flowers are large, and are produced on strong, straight stems.

Bulbs, each, 1½"	10c
Bubblets, Doz.	10c

Bulbs, each, 1½"	50c
------------------	-----

JOHN ALDEN (PRIM.-GRAND.). Light yellow with scarlet blotch on lower petals. The color combination of this flower is unique and helps to brighten up its surroundings whether it be in the flower garden or in a vase. It blooms very early in the season.

Bulbs, each, 1½"	15c	¾"	\$.10
Bubblets, Doz.	15c	100	1.00

LOUISE (GRAND.). A good lavender variety. The flowers are exceptionally large, of a true orchid shade, with wine stripes on lower petals. A strong growing variety.

Bulbs, each, 1½"	10c	¾"	6c
Bubblets, Doz.	10c	100	50c

LOVELINESS (GRAND.). An old but extra fine variety. The color is a very light creamy-buff, tinted pink. The flowers are large and well placed on the stem.

Bulbs, each, 1½"	10c
Bubblets, Doz.	10c

Bulbs, each, 1½"	50c
------------------	-----

MADAM MOUNET-SULLY (GRAND.). Of French origin and one of the most striking sorts. The color is creamy white with two scarlet blotsches on the lower petals. The contrast of these two colors is very marked and it produces a beautiful combination. Another favorable characteristic of this variety is its early blooming habit, for it is sure to be one of the first to open.

Bulbs, each, 1½"	30c
------------------	-----

MAIDEN'S BLUSH (PRIM.). Fine flesh-pink, flecked with rose-pink, blending to lighter pink in throat. A favorite with the florists.

Bulbs, each, 1½"	10c
Bubblets, Doz.	10c

Bulbs, each, 1½"	50c
------------------	-----

MARIE KUNDERD (GRAND.). The attractiveness of this flower is due to the daintiness of its formation. The bloom is medium to large, of pure white, with a scarcely visible line of light pink through the center of the lower petals. Each petal is intensely ruffled and tapers

toward the end, which makes them appear slightly pointed. And their growth is such that when fully developed the outline of the flower resembles a triangle. This formation is novel and as the flowers open with a generous spread of petals, the combination is one of fine grace and beauty. This variety has an enviable award to its credit. In 1919 at Manchester, Mass., it was awarded the FIRST CLASS CERTIFICATE OF MERIT by the North Shore Horticultural Society.

Bulbs, each, 1½"	25c	¾"	\$.15
Bulblets, Doz.....	25c	100.....	1.50

MARY PICKFORD (GRAND.). Delicate creamy-white with light sulphur-yellow throat. An extraordinary flower. This variety was awarded a FIRST CLASS CERTIFICATE OF MERIT by North Shore Horticultural Society of Manchester, Mass.

Bulbs, each, 1½"	10c
Bulblets, Doz.....	10c 100.....

MISS MADISON (GRAND.). A delicate shade of light lavender-pink. The flowers are well placed on strong, straight stems. A very fine sort that will become popular when better known.

Bulbs, each, 1½"	\$.35
Bulblets, Doz.....	35c 100.....

MONTEZUMA (GRAND.). Rich, dark crimson with very dark flakings on petals. The throat of flower deep maroon mottled with yellow. Very large flowers.

Bulbs, each, 1½"	\$.15
Bulblets, Doz.....	15c 100.....

MRS. DOCTOR NORTON (GRAND.). A beautiful shell pink blending into deeper pink at the extreme edges of the petals. The throat is a rich cream color. It is claimed that this flower possesses one of the best combinations of pink and cream. An excellent variety for cut flowers.

Bulbs, each, 1½"	10c
Bulblets, Doz.....	5c 100.....

MRS. F. C. PETERS (GRAND.). A very beautiful shade of rose-lilac, with a crimson blotch bordered white in the throat of the bloom. It is an excellent variety and has won many awards.

Bulbs, each, 1½"	20c	¾"	\$.12
Bulblets, Doz.....	20c	100.....	1.40

MRS. LEON DOUGLAS (GRAND.). This variety produces the largest flowers of any gladiolus. The color is a light begonia-rose flaked with deeper rose markings. The throat of the bloom is pale yellow speckled

with ruby. The flowers are well placed on the spike, and open very widely with as many as ten flowers open at one time. One of the best.

Bulbs, each, 1½"	20c	¾"	\$.12
Bubblets, Doz.	20c	100	1.40

MURIEL (GRAND.). Often called one of the blue shades. The color is a light lavender with blotches of deeper lavender on lower petals. The color contrast is marked, but harmonizes well. Many inquiries were received regarding this sort while on exhibition at the New York State Fair.

Bulbs, each, 1½"			\$.15
Bubblets, Doz.	15c	100	1.00

NEOGA (GRAND.). A low-growing plant and an excellent sort for the garden. The flowers are a deep garnet-red, of good substance with ruffled petals.

Bulbs, each, 1½"			10c
Bubblets, Doz.	10c	100	50c

NIAGARA (GRAND.). This is an old variety that is still very popular and a flower used largely for commercial work. Primrose-yellow, throat tinted carmine. The petals of this flower are often flecked with red.

Bulbs, each, 1½"			6c
Bubblets, Doz.	5c	100	25c

OPALESCENT (GRAND.). Pale rose-lavender. A pure self color with narrow lines of lilac radiating from the center of the flower. The flowers are large, of excellent substance, and are well placed upon the spike. It makes a good strong growth. Mr. Gersdorff rated this variety 97% perfect for commercial work. Received AWARD OF MERIT by American Gladiolus Society in 1924.

Bulbs, each, 1½"	25c	¾"	\$.15
Bubblets, Doz.	25c	100	1.50

ORANGE GLORY (GRAND.). A good shade of orange with a lighter colored throat which is blotched carmine. A creamy-white stripe extends through the center of the lower petals. The flowers have ruffled petals.

Bulbs, each, 1½"	10c	¾"	6c
Bubblets, Doz.	10c	100	50c

ORANGE QUEEN (PRIM.-GRAND.). A rich shade of copper-orange. A graceful growing variety and one greatly admired by visitors.

Bulbs, each, 1½"	25c	¾"	\$.15
Bubblets, Doz.	25c	100	1.50

PARADER (GRAND.). Begonia-rose flaked with bright red. A deep scarlet blotch bordered with yellow in the throat of the bloom. Flowers of good form and

size with many open at one time.

Bulbs, each, 1½"	20c	¾"	\$.12
Bulblets, Doz.	20c	100	1.40

POLYANNA (GRAND.). Clear golden-yellow. Many perfectly placed blooms of medium size open at one time. The petals are lightly ruffled.

Bulbs, each, 1½"	20c	¾"	\$.12
Bulblets, Doz.	20c	100	1.40

PURPLE GLORY (GRAND.). Deep maroon-red, flaked with a darker shade. The flowers are of good substance and are overlaid with a velvety sheen. The petals are intensely ruffled. This variety is one of the best "Glads" grown and has won many prizes.

Bulbs, each, ¼"	15c	¾"	10c
Bulblets, doz.			20c

REMEMBRANCE (GRAND.). An excellent variety. The color is a salmon shade of rose-pink with carmine-rose in throat of bloom. The flowers are large, beautifully ruffled with many open at one time. An excellent sort for cut flowers.

Bulbs, each, 1½"			\$.15
Bulblets, Doz.	15c	100	1.00

REVUE (PRIM.-GRAND.). Flowers of large size, well expanded, with slight hood. The center of the flowers are yellow flushed light pink, which deepens to a darker pink at edges of petals. A tall, erect grower.

Bulbs, each, 1½"	25c	¾"	\$.15
Bulblets, Doz.	25c	100	1.50

RICHARD DIENER (GRAND.). Light geranium-pink, becoming lighter toward the center of the flowers where it blends into a creamy-yellow. The petals are flaked with ruby markings. Large flaring blossoms of good substance. This is an excellent variety for cut flowers and always receives many favorable comments.

Bulbs, each, 1½"			\$.25
Bulblets, Doz.	25c	100	1.50

ROSE GLORY (GRAND.). Delicate shade of rose-pink, having deeper pink stripes through the petals. A very large flower of great substance and beautifully ruffled. One of the best pinks.

Bulbs, each, 1½"			10c
Bulblets, Doz.	10c	100	50c

ROSE PRECOSE (GRAND.). A beautiful light pink flower with the petals sometimes flecked with light salmon markings. In color very similar to the gladiolus "Pink Perfection." The growth is vigorous, producing

a strong flower spike that is tall and straight, with the flowers well placed upon it.

Bulbs, each, 1¼"	\$.15
Bulblets, Doz.....	15c 100.....	1.00

SHELL PINK (PRIM.). Beautiful light rose-pink, becoming lighter toward the center where it blends into white. This white throat is slightly mottled with light pink. Flowers are very large.

Bulbs, each, 1¼"	\$.15
Bulblets, Doz.....	15c 100.....	1.00

SOUVENIR (PRIM.). Pure golden-yellow, the best yellow Primulinus. Good strong grower, valuable for cutting and also for landscape work.

Bulbs, each, 1¼"	10c
Bulblets, Doz.....	10c 100.....	50c

SUNNYMEDE (PRIM.-GRAND.). Rare shade of orange-yellow with red blotch in throat of blooms. The flowers are small but it is a fine, distinct variety.

Bulbs, each, 1¼"	50c
Bulblets, each.....	5c Doz.....	50c

SUNSET GLOW (PRIM.). An unusual color combination. The color is a pure, clear scarlet, growing lighter toward the center of the flower where it blends into a pure golden-yellow. A large flower for a Primulinus type; carried upon a tall, straight stem. Mr. Gersdorff has rated this variety 92% perfect for commercial work.

Bulbs, each, 1¼"	10c
Bulblets, Doz.....	10c 100.....	50c

THOMAS T. KENT (GRAND.). Rose-pink, blotched in the center of petals with strawberry-red. The blooms are exceptionally large, of good substance and a great many open at one time.

Bulbs, each, 1¼"	10c
Bulblets, Doz.....	10c 100.....	50c

TWILIGHT (GRAND.). One of the newer varieties that gives promise of becoming popular. The color is a light creamy-buff with the throat daintily marked with pink and yellow. The flowers are large, of great substance and the petals are heavily ruffled.

Bulbs, each, 1¼"	20c ¾"	\$.12
Bulblets, Doz.....	20c 100.....			1.40

TYRIAN BEAUTY (GRAND.). A very beautiful flower that always attracts the attention and admiration of visitors who see it growing in the garden. In color an "American Beauty" rose, with the upper petals a shade

lighter. It is a strong grower, producing a tall, straight, flower spike.

Bulbs, each, 1 $\frac{1}{4}$ "	10c	3/4"	6c
Bulblets, Doz.	10c	100	50c

WHITE BUTTERFLY (PRIM.). Pure white and one of the finest white Primulinus. A good stem with from 5 to 7 blooms open at one time.

Bulbs, each, 1 $\frac{1}{4}$ "	20c	\$.20
Bulblets, Doz.	100	1.40

Mixture

There are many customers who do not care to purchase any particular variety. A collection of assorted colors is all they desire. To meet this demand I offer an excellent mixture which is very moderately priced. I have received many favorable comments from people who tried bulbs from this collection last year. The mixture contains many different shapes, sizes and colors. Large bulbs only.

Bulbs, per Doz.....	50c	Per hundred.....	\$3.50
